

**CLASS X**  
**GEOGRAPHY**  
**PRACTICE QUESTIONS**  
**2024-2025**  
**SET V**

**Answer the following questions:**

**Maximum marks:20**

1. Match lists I and II and select the correct answer using the codes below in the lists: 1

List I	List II
a. Iron and Steel	I Light Industry
b. OIL	II Joint Sector Industry
c. Watch Manufacturing	III Agro-based Industry
d. Jute Textile	IV Mineral-based Industry

**Options –**

- A. a- III, b- I, c-II, d-IV  
B. a-IV, b-II, c-I, d-III  
C. a- II, b- III, c- I, d- IV  
D. a-I, b- IV, c- III, d- I
2. Read the following statements and identify the correct answer from the options given below: 1

Assertion(A): Agriculture and Industry are not exclusive of each other.

Reason(R): Industrial development is a precondition for eradicating unemployment and poverty in our country.

- A. Both (A) and (R) are true and (R) is the correct explanation of (A).  
B. Both (A) and (R) are true but (R) is not the correct explanation of (A).  
C. (A) is true but (R) is false.  
D. (A) is false but (R) is true.

3. 'Weaving is highly decentralized in India.' Identify the correct reason from the options given below about weaving being decentralized in the country. 1
- A. To provide scope for incorporating traditional skills and designs of weaving.
  - B. To expand the profit in the industry.
  - C. To modernize the industry.
  - D. To attract foreign investment and expand business.
4. Name the two main products obtained from the sugar industry, that India leads in production in the world. 2
5. Why are most iron and steel industries in India located in the Chhotanagpur Plateau region? 3
6. 'Although industries contribute significantly to India's economic growth and development, the increase in pollution of land, water, air, and noise results in degradation of the environment.' Suggest and elaborate five ways in which environmental degradation by industries can be controlled. 5
7. Read the passage carefully and answer the following questions: 4
- The fertilizer industry is centred around the production of nitrogenous fertilizers (mainly urea), phosphatic fertilizers and ammonium phosphate (DAP), and complex fertilizers which have a combination of nitrogen (N), phosphate (P), and potash (K). The third, i.e. potash is entirely imported as the country does not have any reserves of commercially usable potash or potassium compounds in any form.
- i. Name the event that led to the expansion of the fertilizer industry in India. 1
  - ii. State the products of the fertilizer industry. 2
  - iii. 'Potash is entirely imported.' Give a reason for the mentioned statement. 1
8. On the given political map of India, locate and label any 3 of the following with suitable symbols: 3
1. Mumbai Sea Port.
  2. Bokaro Coal Mine
  3. Major Sugarcane Producing state of India
  4. Sardar Sarovar – Dam on River Narmada.
